

PROCURE AND PREFABRICATE

FROM 2D DRAWINGS

AECInspire's 2D Module connects 2D drawings to your material workflows, including planning, procurement, ordering, and prefabrication.

Verify and quantify your materials, and integrate with suppliers in a few clicks from your 2D drawings with AECInspire's 2D Module.

AECINSPIRE EMPOWERS AEC PROFESSIONALS TO HARNESS THE POTENTIAL OF BIM AND PROJECT DATA TO BETTER UTILIZE THE INFORMATION ACROSS PROJECT LIFECYCLES.

BOMS FROM 2D

AECInspire generates accurate, multi-level, reliable Bills of Materials (BOMs) from 2D drawings.

IMPROVED VISIBILITY

to vital information with access to accurate BOMs in the early stages of the project lifecycle.

ASSEMBLY LIBRARIES

Select from an extensive library of pre-built assemblies to streamline the process and save time.
