

# EASILY CONNECT YOUR 3D BIM

INFORMATION TO YOUR MATERIAL  
PROCESSSS ON THE CLOUD

AECInspire's 3D Module connects 3D model information to your material workflows, including planning, procurement, ordering, and prefabrication.

Generate multi-level, accurate, reliable Bills of Materials (BOMs) and keep your teams connected with AECInspire's 3D Module.

**AECINSPIRE EMPOWERS AEC PROFESSIONALS  
TO HARNESS THE POTENTIAL OF BIM  
AND PROJECT DATA TO BETTER UTILIZE  
THE INFORMATION ACROSS PROJECT LIFECYCLES.**

## BOMS FROM 3D

AECInspire generates accurate, multi-level, reliable Bills of Materials (BOMs) from 3D models.

## VERIFICATION CHECKS

and constructability checks ensure the right materials are ordered for the right project.

## TRACK PRODUCTIVITY

Version controlled data comparison and productivity tracking.
