

NOW OFFERING: TAKE-OFF AS A SERVICE

Material procurement does not have to be difficult. Breakdown BOMs by locations, schedules, and work packages to know exactly what you need, where you need it.

WHO IT IS IDEAL FOR:

This offering is perfect for MEPFS and Communications Contractors, MEPFS Suppliers/Distributors, and Original Equipment Manufacturers (OEM).

KEY BENEFITS:

- ✓ Obtain accurate, procurement- ready BOMs
- ✓ Increase installation accuracy and productivity with less overhead costs
- ✓ Improve communication by providing helpful material and location information for on-site team
- ✓ Eliminate last-minute changes and missing items with timely material ordering

WHAT IS INCLUDED?

Utilizing AECInspire's 2D and 3D Modules, our team generates the master list of itemized materials, Bill of Materials (BOM), and provide our customers with comprehensive Excel reports for:

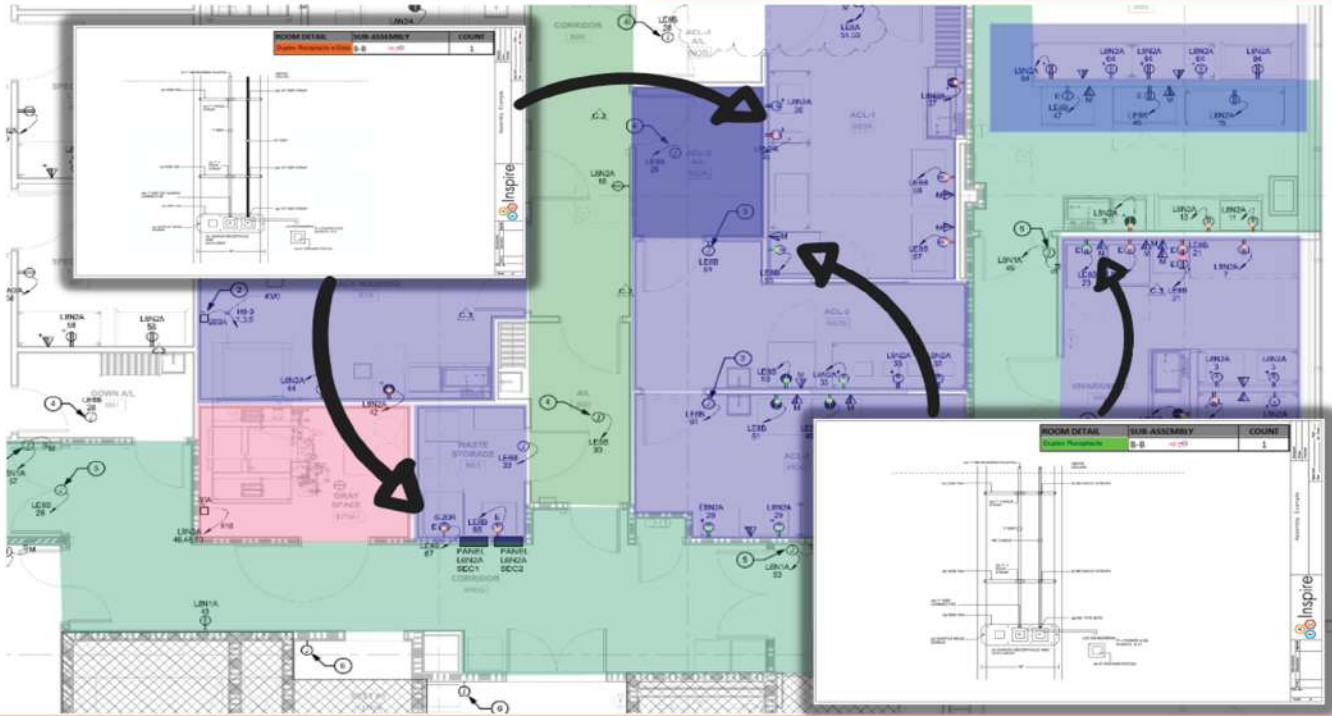

- ✓ All **Conduits and Fittings** including those not modeled as connectors
- ✓ Detailed **Wire Cable Schedule** corresponding to all modeled conduits
- ✓ **Supports and Hangers** with cut lengths for struts and rods
- ✓ **Electrical boxes** with rod cut lengths
- ✓ **Cable Tray** lengths and fittings

In addition to reports, our team provides access to our cloud-based tool AECInspire, to check all the generated quantities, as well as compare the quantities with previous versions of the same model to see changes across the project lifecycle.
